

Match to Talent - Project Bazaar

Does your company have one or more project ideas for students at DTU Environment?

On Monday, 22 November DTU Environment and DTU Career host a match making event in cooperation with CLEAN between companies and students from DTU Environment. The format of the event will be a "bazaar" and will take place in the entrance hall of building 116 at DTU, Lyngby Campus.

The main focus of the event is student projects, but the event is also an opportunity to discuss recruitment, student positions, industrial PhD and other subjects with the students.

Companies, organisations and researchers with project ideas will be offered a stand to enter into dialogues with students - all free of charge.

To create a relevant and concrete event, it is important that the stands are manned by professionals with knowledge of the project ideas and the capability to answer clarifying questions.

DTU Environment has many international students, which require material in English.

We recommend that you submit your project to the 'DTU Internship and Project Bank' prior to the event:

[Internship and Project Bank \(dtu.dk\)](https://dtu.dk). Thus, giving the students time to prepare their pitch or questions to your projects.

Please, remember to specify that the students can meet you at "Project Bazaar" on 22 November from 11-13.30 in building 116.

Please contact Viggo Aaberg Kærn or Clara Knaake Pedersen, if you want to participate or know more about the Project Bazaar.
